RE: United States of America, et al. vs. Reilly Tar &

Chemical Corporation, et al.

File No. Civ. 4-80-469 / CD-RAP Section 12.1.1

Gentlemen:

The analytical results from municipal well, SLP 6 have exceeded the drinking water criteria for total PAH's, A level of 217 total other PAH's was reported. The CD-RAP Section 12.1.1 calls for continued sampling while the well is active. The City has forgone the continued sampling and immediately moved SLP 6 from active to inactive status. SLP 6 will remain on inactive status indefinitely.

If the Agencies require any action other than the action taken by the City, please advise.

Any questions may be directed to myself at 952-924-2557 or William Gregg, ENSR, at 952-924-0117.

Sincerely,

Scott E. Anderson

Superintendent of Utilities
